

STATEMENT OF MOTIVATION & CAREER PURPOSE

Opportunity: AI & Automation Intern (Remote)

Why Bamboo Works?

Bamboo Works's commitment to building intelligent internal technology and AI-driven workflows for global remote teams strongly resonates with my career vision. I thrive in fast-paced environments where emerging technologies are transformed into practical tools that boost team efficiency.

Technical Alignment & Personal Drive

My passion lies at the intersection of Artificial Intelligence, workflow automation, and user-centered design. From developing Random Forest classification pipelines to building conversational NLP assistants and interactive UI systems, I am constantly learning by building.

Future Outlook

As an AI & Automation Intern at Bamboo Works, I am eager to collaborate directly with leadership, test emerging AI-assisted development environments (such as Claude Code and Codex), and contribute meaningful operational improvements.
