

LINKEDIN RECRUITER / LEADERSHIP OUTREACH MESSAGE

Hi [Hiring Manager / Leadership Team],

I noticed that Bamboo Works is expanding its internal AI technology and automation initiatives for the **AI & Automation Intern (Remote)** role.

As a Master's student in AI & Cybersecurity specializing in Python automation pipelines, NLP workflows, and UI dashboards, I recently submitted my application. I would love to connect and share how my experience building AI tools and participating in Harvard-affiliated remote leadership programs aligns with your team's goals.

Best regards,

Benouali Abdelkader Yahia Zakaria
