

LINKEDIN RECRUITER / TEAM OUTREACH MESSAGE

Hi Elevvo Pathways Team,

I noticed that Elevvo Pathways is accepting applications for the **Target Role** program.

As an AI & Cybersecurity Master's student with hands-on experience in Python, Scikit-learn, EDA, data cleaning, and ML model training (published on GitHub), I have submitted my application. I would love to connect and share my enthusiasm for building and documenting end-to-end ML projects!

Best regards,

Benouali Abdelkader Yahia Zakaria
