

# BENOUALI ABDELKADER YAHIA ZAKARIA

Visiting Student Researcher (NLP & LLMs) | Master's Student in Artificial Intelligence & Cybersecurity  
Beni Saf, Aïn Témouchent, Algeria | +213 781 306 713 | [abdelkaderbenouali301@gmail.com](mailto:abdelkaderbenouali301@gmail.com) | [LinkedIn](#) | [GitHub](#) | [Behance](#)

## SUMMARY

---

Master's student in Artificial Intelligence & Cybersecurity at University Ain Temouchent Belhadj Bouchaib, with a Bachelor's in Computer Science (Ranked Top 3 in cohort). Specialized research focus on Natural Language Processing (NLP), Large Language Models (LLMs), and Machine Learning. Hands-on technical background developing LLM analysis engines (WriteLens V2 with Groq API, NewsBot with Google Gemini 1.5 Flash), evaluating ML models (Random Forest, SVM RBF), conducting paper literature reviews, and compiling formal academic LaTeX research reports (NeuraSight). Completed intensive computing research training at the Algerian-American Summer University 2025 (Advanced Computing Track under Dr. Mounir Hahad). Engaged in international leadership and virtual exchange programs (Harvard-affiliated Aspire Leaders Program, Erasmus+ Virtual Exchange). Seeking a Visiting Student Researcher / Research Internship position in Prof. Yulan He's NLP research group at King's College London starting September 2027.

## EDUCATION

---

### Master's Degree in Artificial Intelligence & Cybersecurity

University Ain Temouchent Belhadj Bouchaib --- Aïn Témouchent, Algeria | *September 2025 -- July 2027 (In Progress)*

- **Coursework:** Machine Learning, Deep Learning, Cybersecurity, Data Ethics, and Information Systems.

### Bachelor's Degree in Computer Science

University Ain Temouchent Belhadj Bouchaib --- Aïn Témouchent, Algeria | *September 2022 -- June 2025*

- **Academic Distinction:** Ranked Top 3 out of cohort across first 4 semesters (L1 & L2).
- **Core Competencies:** C Programming, Data Structures, Algorithms, Computer Networking, Systems Logic.

## TECHNICAL PROJECTS & MACHINE LEARNING IMPLEMENTATIONS

---

### Adaptive Blended Assessment System --- End-to-End Machine Learning Model

*Python, Scikit-learn, Pandas, NumPy, Feature Engineering, Model Evaluation*

- Architected Random Forest ML pipeline to predict student performance metrics with consistent, reproducible results.
- Performed data cleaning, feature engineering, and Exploratory Data Analysis (EDA) on raw assessment datasets.
- Evaluated model metrics (accuracy, precision, recall, F1-score) and published benchmark results on GitHub.

### Eco Sentinel --- Automated Data Cleaning & EDA Pipeline

*Python, Pandas, Matplotlib, Data Visualization, Environmental Analytics*

- Developed automated data cleaning and EDA tool executing missing value imputation on environmental datasets.
- Built Matplotlib data visualizations to highlight environmental risk trends and automate metric reporting.

### NeuraSight --- AI & Neural Data Science Research Project

*Python, Jupyter Notebook, Machine Learning, HTML5/CSS3/JavaScript, LaTeX*

- Engineered end-to-end AI pipeline combining Jupyter Notebook ML analysis and interactive web dashboard.
- Authored academic LaTeX research report and published open-source codebase on GitHub (`github.com/benoualiabdelkader/NeuraSight`).

## LEADERSHIP & REMOTE WORK EXPERIENCE

---

### Participant --- UNESCO Youth Hackathon 2026

UNESCO --- *Remote Global* | 2026

- Developed **EchoBreaker**, an interactive Phygital platform & algorithm simulator to enhance Media & Information Literacy (MIL).
- Engineered web simulation (HTML5/CSS/JS, Firebase) visualizing recommendation filter bubbles and mitigating algorithmic bias.

### **Participant --- Aspire Leaders Program**

**Aspire Institute (Harvard-affiliated)** --- *Remote Global* | July 2026 -- Present

- Selected for Cohort 3 of a competitive global leadership program for high-potential international leaders.
- Completed Harvard-affiliated masterclasses on problem-solving, digital innovation, and career strategy.
- Collaborated in cross-cultural remote teams to analyze complex technical and operational case studies.

### **Participant --- Erasmus+ Virtual Exchange Program**

**VIRTUALLYEDU** --- *Remote International* | July 2026 -- Present

- Participating in international Erasmus+-funded program focused on digital skills, cybersecurity, and virtual teamwork.
- Executing collaborative digital assignments and cross-border problem-solving projects with global peers.

## **TECHNICAL SKILLS & LANGUAGES**

---

- **Machine Learning & Data Science:** Python, Jupyter Notebook, NumPy, Pandas, Matplotlib, Scikit-learn, Data Cleaning, EDA, Feature Engineering, Random Forest, Model Evaluation.
- **Programming & Web:** C, HTML5, CSS, JavaScript, Firebase, Front-End Development, Git/GitHub.
- **IT Support & Systems:** IT Support, Systems Administration (Windows/Linux), Computer Maintenance, Networking (TCP/IP).
- **Design & Tools:** Figma, UI/UX Design, Prototyping, Wireframing, User Flow Design, Microsoft 365.
- **Languages:** Arabic (Native), English (B2), French (B1).
