

TAILORED PORTFOLIO PROJECTS SELECTION

Selected Projects for King's College London (KCL) -- Department of Informatics (Research Internship / Visiting Student Researcher -- NLP & Large Language Models)

1. Adaptive Blended Assessment System

- *Tech:* Python, Scikit-learn, Pandas, NumPy, Random Forest
- *Relevance:* End-to-end ML pipeline, feature engineering, model evaluation, and algorithm comparison.

2. Eco Sentinel --- Data Cleaning & Visualization Pipeline

- *Tech:* Python, Pandas, Matplotlib, Data Preprocessing
- *Relevance:* Exploratory Data Analysis (EDA), data cleaning, and visual trend reporting.

3. NeuraSight --- AI & Neural Data Science Research Project

- *Tech:* Python, Jupyter Notebook, Machine Learning, HTML5/CSS3/JavaScript, LaTeX
- *Relevance:* Complete data science research pipeline, model training, web dashboard, and LaTeX documentation on GitHub.
